# CliniShift®

Who we are

CliniShift is a superior communication platform that can seamlessly manage schedules, time off requests and fill open shifts. It is a cloud-based application for web and mobile use, designed to fit the needs of large and small organizations. CliniShift is a disruptive technology that was designed to remove the need for time consuming WhatsApp groups, emails, phone calls, and paper when managing staff schedules.

The CliniShift software is comprised of the CliniShift Manger and CliniShift Mobile App

CliniShift Manager

The CliniShift Manager web portal is fully integrated with the CliniShift smartphone app facilitating real-time communication between Managers and staff. The platform enables managers to publish staff schedules, respond to time off requests, send shift requests to available staff using the CliniShift in-app availability calendar and access hours worked by staff all from the convenience of the CliniShift Manager portal.

What type of organisation can avail of the CliniShift Manager?
Acute Hospitals and Health Systems | Senior Living | Skilled Nursing Facilites | Home Care | Hospice Care | Ambulatory Sites | Physician Practices | Dental clinics

CliniShift App

The CliniShift App is free to download on iOS and Android smartphones by clinical and non-clinical staff in any healthcare setting across all profession types. Once approved by a manager, staff can view their working schedule, share their availability to work additional shifts, request time off and clock in/clock-out all from the within their smartphone.

Who can avail of the CliniShift App?
All clinical and non clinical staff
